

Heroin Dreams
Life of Agony

F# **B**
And it was never enough
F# **B**
And it was never enough now
F# **B**
That heroin stuff
F# **B**
Traveling through Daddy s arm now

F# **B**
Cuffed in that junk who knows if I would survive
F# **B**
Once you start shooting, forget living life
F# **B**
Lost in your shadows, no soul, no backbone
F# **B**
Sucked in, locked down, spinning breakdown, heroin whores

F# **E** **B**
Everybody s talking about heroin dreams...
F# **E** **B**
What the fuck you gonna do with the rest of your life?

F# **B**
Scream at me, back slap me, chew off my ears
F# **B**
And I can t stop this sickness, I ve been trying for years
F# **B**
Deeper and deeper lies, sensational fears
F# **B**
They re here just to guide you as we age through the years

F# **E** **B**
Everybody s talking about heroin dreams...
F# **E** **B**
What the fuck you gonna do with the rest of your life?
F# **E** **B**
What the fuck you ganne do with the rest of your time?

F# **E** **B**
I m lost in your shadows...
