II:

(do the 1st verse chords)

walking

past the city lights

silence can be so disturbing

you ll find me standing in the night

the stars never seem so unending

so unending

Ab5

but we painted

whitewashed everything

C5

Ab5

when all that remains are

shadows of the stains

C5

tell me

Ab5

where did we go wrong

G5

can we just move on

(do the Chorus chords)

hello

from the world below

while I m watching the sun burning

as the road is slowly turning

when I know

that in letting go

I m learning how to live

through a life I have to give

(do the Chorus chords)

hello

to the world below

while I m watching the world spinning

this night seems so unending

well I ll follow

to a place I know

that s only the beginning

start over after ending
