

The End Has Only Begun
Lifehouse

INTRO: **G C** 2x

1ª **G C G C**
We walk in your footsteps
P **F G Am**
A Though I've had my ups and downs
R **G C G C**
T and I'll stand in the silence
E **F G Am**
Until I figure it out

(**C A7 D Am**)
One might fall and the other will stand
and one might give where the other won't bend
The night is bright as the sun

(**C A7 D Am**)
I'm never gonna know
Never gonna look back
Never gonna know where we would have ended up at
The end has only begun

(repete 1ª parte)
So stop counting the hours
Live out in the world
Cause I've been chasing the answers
and they don't want to be found

(**C A7 D Am**)
I'm never gonna know
Never gonna look back
Never gonna know where we would have ended up at
(E)

The end has only begun
D
Well the day
D9 A
Tonight feels like a million miles away
Am Em/D
and these times just won't change
(**F C**) 2x
Life just stays the same (E)
I'd give anything to see the light of day

(Repete estribilho)
Well the day
Tonight feels like a million miles away

and these times just won t change
Life just stays the same
I d give anything to see the light of day
