

Face Up

Lights

I m positive this is 100% correct.
Played it with the recording with a tuned guitar :)
Another absolutely amazing by the ohsotalented lights.

STANDARD TUNING, NO CAPO

INTRO:

C **G** (x2)

C
Its late and I am tired, wish I could spark a smile
G
The place is flying high but right now I want to be low
C
Dont want to move an inch, let alone a million miles
G
And I dont want to go but I know I gotta go
D **C**
I just want to feel alive

C **G**
The times you dont want to wake up
D **Em**
Cause in your sleep its never over when you give up
C **G**
The sun is always going to rise up
D **Em**
You need to get up, gotta keep your head up
C **G**
Look at the people all around you
D **Em**
The way you feel is something everybody goes through
C **G**
Dark out, but you still gotta light up
D **Em**
You need to wake up, gotta keep your face up

C
Seems like the more you grow, the more time you spend alone
G
Before you know it you end up perfectly on your own

C

The citys shining bright, but you dont see the light

G

How come you concentrate on things that dont make you feel right

D

C

I just want to feel alright
