

**River
Lights**

Hi everyone!

So this is my first time doing this so, don't judge me.:) I did this by ear.
I really love this song, so I decided to crack out the old guitar and play River
by
LIGHTS for you all.

Capo on 4

G
Out across cities I see buildings turn into piles
C
And watch the world in wonder as mountains turn into tiles
G
And trees losing their leaves and our faces becoming tired
C
I wish I could discover something that doesn't expire
G
Come and stumble me

Chorus:

G
Take me river, carry me far
C
Lead me river, like a mother
G
Take me over, to some other
C
Unknown, put me in the undertow

G
Such are the things that make a kingdom rumble and shatter
C
The same dynamic that another day would never matter
G
It really just depends on who's giving and who's receiving
C
And things that don't make sense are always a little deceiving
G
Come and humble me

Chorus...

G
I wanna know where you're going
D
A follower following

G

Changing but never changed

D

Claiming but never claimed

Chorus...

This concludes my first tab! Hope you enjoyed it!
