

Dark Side Of The Moon
Lil Wayne

[Verse 1]

E **F#m** **G#m**
As I wipe the stars off the windows on my space ship
B
Call out the spirits in my basement
E **F#m** **G#m**
Crawl out the center of the snake pit
B
And fall into the middle of her greatness
E **F#m** **G#m**
Fireballs reflect off the frames of the pictures
B
She s not at all impressed with the flames or the flickers
E **F#m**
But take her for a walk on the moon as she wear slippers
G#m **B**
The end of the world is coming soon, Imma miss it
E **F#m**
The sky is falling down, I am falling for her quicker
G#m **B**
We hide amongst the clouds, then we pardon the enigma
E **F#m**
High above the ground but I m under her charisma
G#m **B**
Her sound is in surround when I m in her solar system
E **F#m**
The quiet calms my quasars, the eclipse is eclipsin
G#m **B**
My astronaut helmet kinda shifted, full of lipstick
E **F#m**
Planet of the aches, and she is my prescription
G#m **B**
We out of this world, baby, we have been evicted

[Chorus]

E **F#m** **G#m**
Intergalactical love
B **E** **F#m** **G#m**
The sky is falling, intergalactical, intergalactical love
B **E** **F#m**
And I ll be waiting for you, for you, for you
G#m
On the dark side of the moon
B **E**
Said I ll be waiting, I ll be waiting for you
F#m **G#m**

On the dark side of the moon

B **E**
And if you happen to get there before me
F#m **G#m**
Leave a message in the dust just for me
B **E** **F#m**
If I don't see it I'll be waiting for you
G#m **B**
On the dark side of the moon (yeah, yeah, yeah, yeah)

[Verse 2]

E **F#m** **G#m** **B**
I open up the curtains
E **F#m** **G#m**
Window-watchin', people killin', robbin'
B **E** **F#m** **G#m**
The sky is fallin', fallin' down
B **E**
I turn in to news, and this is the apocalypse
F#m **G#m**
People livin' on their rocket ships
B **E** **F#m**
My mama always told me that there would be no stoppin' this
G#m **B**
Fireball reflections on the friends and the pictures in my room
E
Of I and you
F#m
Tell me, will I see you soon?
G#m **B**
Meet you on the moon?

[Chorus 2]

E **F#m** **G#m**
Intergalactical love
B **E** **F#m** **G#m**
The sky is falling, falling down
B **E** **F#m**
I'll be waiting for you, for you, for you
G#m
On the dark side of the moon
B **E** **F#m**
I'll be waiting, I'll be waiting for you
G#m
On the dark side of the moon
B **E**
And if you happen to get there before me
F#m **G#m**
Leave a message in the dust just for me
B **E** **F#m**
If I don't see it, I'll be waiting for you

On the dark side of the moon (yeah, yeah, yeah, yeah)

[Outro]

Said I ll be waiting, I ll be waiting for you

On the dark side of the moon

And if you happen to get there before me

Leave a message in the dust just for me

If I don t see it, I ll be waiting for you

On the dark side of the moon (yeah, yeah, yeah, yeah)

Intergalactical love

The sky is falling, intergalactic, intergalactical love

And I ll be waiting for you

On the dark side of the moon

Said I ll be waiting, I ll be waiting for you

On the dark side of the moon (yeah, yeah, yeah, yeah)

Here s a rough tutorial if needed: <https://youtu.be/GJUit60JlGg>
