

Oh My God  
Lily Allen

**F#m**

Time on your side that will never end

**B**

The most beautiful thing you can ever spend

**F#m**

But you work in a shirt with your name tag on it

**B**

Drifting apart like a plate tectonic

**B** **F#m**

It don t matter to me

**E** **D**

Cos all I wanted to be

**B** **F#m**

Was a million miles from here

**E** **D**

Somewhere more familiar

**F#m**

Too much time spent dragging the past up

**B**

I didn t see you not looking when I messed up

**F#m**

Settling down in your early twenties

**B**

Sucked more blood than a backstreet dentist

**B** **F#m**

It don t matter to me

**E** **D**

Cos all I wanted to be

**B** **F#m**

Was a million miles from here

**E** **D**

Somewhere more familiar

**F#m**

Oh my god I can t believe it

**F#m** **D** **E**

I ve never been this far away from home

**F#m**

And oh my god I can t believe it

**F#m** **D** **E**

I ve never been this far away from home

**F#m**

And oh my god I can t believe it

**F#m** **D** **E**

I ve never been this far away from home

**F#m**

And oh my god I can t believe it

**F#m** **D** **E**

I ve never been this far away from home

Solo (Trumpet)

**F#m**

Great rulers make for greater glory

**B**

The only thing growing is our history

**F#m**

Knock me down I ll get right back up again

**B**

I ll come back stronger than a powered up Pac-Man

**B** **F#m**

It don t matter to me

**E** **D**

Cos all I wanted to be

**B** **F#m**

Was a million miles from here

**E** **D**

Somewhere more familiar

**F#m**

Oh my god I can t believe it

**F#m** **D** **E**

I ve never been this far away from home

**F#m**

And oh my god I can t believe it

**F#m** **D** **E**

I ve never been this far away from home

**F#m**

And oh my god I can t believe it

**F#m** **D** **E**

I ve never been this far away from home

**F#m**

And oh my god I can t believe it

**F#m** **D** **E**

I ve never been this far away from home
