You keep your distance
I can't deny you
I got the feeling
Can't satisfy you
I got your picture on the wall
I got the picture long gone
You keep your wishes
I'll keep my feelings
There goes along the one
That kept me breathing
I'm waiting for you
I know you're leaving
I still adore you
You never need me

Hold on
I've found another way to let you go
Away
Hold on
You've found another way to bleed my soul

Away

The things you told me
To hear you speak
I'm burning slowly
I'm growing weak
You bring me closer to yesterday
Yesterday's a million miles away
Why can't you hear me?
Why can't I see you?
And I don't understand
What keeps me breathing
I'm waiting for you
I know you're leaving
I'll still adore you
You'll never need me

Hold on
I've found another way to let you go
Away
Hold on
You've found another way to bleed my soul
Away
