

Stinkfinger

Limp Bizkit

3 Dollar Bill Y all

Tabbed by WessT.

I keep my bass tuned down a whole step so just adjust the frets to whatever yours is tuned to. You should at least be able to read that much if you re gonna play real bass! Remember this is my interpretation of the song and it may not be correct. If it s not, well then tough shit!

Slap the 6-4-6 and pluck the 12 with thumb.

Repeat this as many times as needed.

```

F-----)
C-----)
G---6---4--6-----6---4--6-----)
D-----12-----)
A-----)

```

Heavier part: repeat as many times necessary.

```

F-----)
C-----)
G-----)
D-----444444-----444444-----)
A-----6--44-----6--44-----)

```

Back to beginning.

Back to Heavy part.

It s a pretty easy song, but the simple slapping is pretty fun. If I forgot anything, feel free to correct me. Keep playin that bass!
