The Long Way Around

**C# Fm F# C#**  
It s a cinch that I ve been wrong  
**F# G# C# Bbm**  
And it s clear it s not been long  
**F# G# C#**  
Since I was hard on you  
**Fm F# C#**  
But now a time has come  
**F# Fm Bbm**  
When yesterday don t mean nothin  
**C# Fm F# D# F# C#**  
Now I m in love with you and you ve taken me the long way around  
  
Take a look how young we are  
A month has changed the moon and the stars  
Changing the things we do  
You ve been lookin for something strong  
When other things don t mean nothin  
Now I m in love with you and you ve taken me the long way around  
**B C#**  
Well I can t see beyond the doubt that s in your eye  
**B E F# G#**  
It s on the outskirts of my fading alibi

Verse 1
