

**Road Between**

**Lisa Marie Presley**

I am almost 100% sure this is correct:

Verses and Bridge: **Em, G, C**

Chorus: **D, G, C**

Intro: **Em, G, C**

**Em G C**

Out on the road between nowhere and hell  
I caught a glimpse of my reflection in you  
But they can't believe I still want you around

Hung on the line between addiction and this  
I can't believe you said I hurt you again  
But I can't afford to let you get away  
And I cannot take the darkness when you stay

**D G C**

You're all I see  
And it's definitely my fault  
You're all I see  
But don't come near me at all

**Em G C**

How many roads between your world and mine  
How many broken doors and how many fights  
I changed my furniture to make you go away  
I'm still overwhelmed at how much space you take

You're all I see  
And it's definitely my fault  
You're all I see  
But don't come near me at all

**Em, G, C**

**Em, G, C**

And I can't have you right now  
And I can't get it right now  
And I can't have you right now  
And I can't get it right now

You're all I see  
And it's definitely my fault

You re all I see  
But don t come near me at all  
This is definitely my fault

Hung on the line between addiction and this  
I can t believe you said I hurt you again

Enjoy :)
