C **F**
 Stardust, lady Stardust spread your hair across your universe
Am **G**
 Some magic, let us in

C **F**
 Let s find it to the Milky way and climb these concrete walls
Am **G**
 And say don t ever close us in

C **F**
 Like every city needs a distance, every sky demands a moon
Am **G**
 Every winter needs a snowfall, every summer wants a June

C **F**
 Money s just a piece of paper, gold is blinding don t you see
Am **G**
 Fame is just our own illusion of what life was meant to be

C **F**
 But I don t need a perfect mirror, I don t care for queens and kings
Am **G**
 We are free and we are perfect when Lady Stardust sing

C **F** **Am** **G**
 Play on, play on, play on, play on, play on, oh Lady Stardust sing
 Play on, play on, play on, play on, play on, oh Lady Stardust sing

Stardust, lady Stardust let us cruise around your universe

Some magic, I am in

Lets play this song and on and on and on an on til the dawn

And never let them win

And every minute needs the hour, every day demands a night

Every giant super nova, it s the city with your light

Moviestars and grand directors, silver screens and Mtv

Gods and angels all around me fills the air like little bees

I don t need no superhero, I don t care for Gods with wings

I hear teardrops on the pavement when Lady Stardust sing

Play on, play on, play on, play on, play on, oh Lady Stardust sing

Play on, play on, play on, play on, play on, Lady Stardust sing
