Verso:

People said we d have to make it on our own
We never thought there d be another hand to hold
We didn t care, we never did what we were told
They couldn t break us
They could never turn us cold
You and me well we were never growing old

C

I see you now

D

We talk about
The way it used to be

C

When we were brave

D

We misbehaved
Yeah you know what I mean

C

And you know why

D

Our battle cry always comes back to me
