

Little Man

Little Dragon

This is my first tab, so comments and suggestions are very welcome.

**Dm** **F**  
You grew high, taller than the middle class boy,

Cash running in your pockets

**Dm** **F**  
You skate high, gold on your finger tips

They try to make people nervous

**Dm** **F**  
Something missing in your smile

**Dm**  
Something missing in your soul

**F**  
Are you suffering the blues?

Tell me why, tell my when, tell me why, when, why, when

**Dm**  
Green dollar bills slipped your hand, little man

**F**  
Anything you wanna come in-stant-ly

**Dm**  
Boy, when the plan slipped your hand, little man

**F**  
Anything you wanna come in-stant-ly

**Dm** **F**  
Castle, house, cars and the ladies blues,

no doubt, got you feeling empty

**Dm** **F**  
Your bank s packed to edge and still you re sad

**Dm** **F**  
Something missing in your smile

**Dm**  
Something missing in your soul

**F**  
Are you suffering the blues?

Tell me why, tell my when, tell me why, when, why, when, yeah
