

**Be One Now**  
**Little Feat**

Be One Now  
Fred Tackett, Lowell George  
Little Feat  
Down on the Farm - 1979

**D**   **A**      **D**      **A**  
Well, I see you so far away  
**Eb**   **Bb**      **E/G#**   **A**  
In my memory you will stay  
          **D**   **A**      **D**          **A**  
There s a good life, a right way to go  
**Eb**   **Bb**      **E/G#**   **A**  
But sometimes I feel so low

**A**                          **D**          **A**  
If you wanna love me, wanna be my friend  
**E**      **A**   **E**      **A**  
Be one now, be one now  
                          **D**                  **A**  
And you say you need me and you want to share  
**E**                          **A**   **E**      **A**  
Darlin , where s your love? Darlin , where?  
**C#**                          **F#**  
Take a chance, you can t play it safe  
**C#**                          **F#**  
Trust your soul, you won t lose your faith  
**E**                          **A**  
Sometimes right but more times wrong  
**D**          **E**                          **A**  
Wrong can turn out right they say  
          **D**                          **A**  
Just a different shade of gray

There s a moonrise in an eastern sky  
Clouds they try but cannot hide  
And the storm will cease and the sun will shine  
Roll away for all mankind

Take a chance, you can t play it safe  
Trust your soul, you won t lose your faith  
Sometimes right but more times wrong  
Wrong can turn out right they say  
Just a different shade of gray

There s a way to a better life

Hesitate, you know you ll pay the price  
If you ever slip and fall  
There s a love here after all, a love here after al

It s a new day, never mind the past  
Lay it down cause it won t last  
And you say you need me and you say you care  
Where s your love, darlin ? Oh, darlin , where?

Take a chance, you can t play it safe  
Trust your soul, you won t lose your faith  
Sometimes right but more times wrong  
Wrong can turn out right they say  
Just a different shade of gray

Take a chance, you can t play it safe  
Trust your soul, you won t lose your faith  
Sometimes right but more times wrong  
Wrong can turn out right they say  
Just a different shade of gray

(David Ludwick)
