**Little Feat**

Hate To Lose Your Lovin  
-- Craig Fuller, Paul Barrere

**D**  
Last night I sat my baby right down  
                  **G**                  **A**                  **D**          **A**  
And said the talk s all round the town  
**D**  
You re cheatin while I work all day  
I guess that feelin s finally gone  
                  **D/F#**  **G**                  **D**                                  **A**  
And I got so tired of spendin my nights alone  
**D**  
So I packed my bags and I m goin away

**Bm**          **A**          **D/F#**                  **G**          **D**  
But I sure would hate to lose your lovin don t you know  
                  **A**  **D**  
If you said good-bye it just wouldn t feel right some how  
                  **A**  
Cause it felt so good  
**D**                  **Em7**                                  **D/F#**                  **G**  
Whole lot better than I thought it could  
**D**                  **A**  **D**          **D/F#**  **G**  **D**  
Honey I d hate to lose you now

Well I swore I wouldn t sit and cry  
Cause my baby left me both high and dry  
Wouldn t sit and pine gonna move on down the line  
Well I knew just what I had to do  
Had to find me some love that s new  
Cause lovin s so easy to find

But I sure would hate to lose that lovin don t you know  
If you said good-bye it just wouldn t feel right some how  
Cause it felt so good  
Whole lot better than I thought it could  
Honey I hate to lose you now

**D**  
But I think it s gonna be all right  
  **D/F#**                  **G**          **D**  
Cause I found a little girl last night  
                  **A**  **D**  
And she said you better just move on in

**D/F#**          **G**          **D**

Cause I got my rent paid through next week and I ll be out tonight

**A**

**D**

But don t ya know I ll do my best to be back by ten

I sure would hate to lose that lovin don t you know  
If you said good-bye it just wouldn t feel right some how  
Cause it felt so good  
Whole lot better than I thought it could  
Honey I hate to lose you now

**D**

Don t you know

**D**

**A**

**D**

Honey I hate to lose you now

Tryin to tell you

**D**

**A**

**D**

Honey I hate to lose you now
