

Them
Little Green Cars

Intro:

F7 Dm F7 Dm F7

Verse 1:

Dm

F7

Please say you're not alone, 'cause that just wouldn't be right.

To leave a girl like you, alone in town at night.

The men aren't safe round here; they spit and shout and fight.

It's quiet back at my house, and you can spend the night.

Chorus:

F

But when I'm with my friends, I can be as sick as them.

Them. them them them

But if its sickness has my friends, well it won't be long til we're all dead

F

from it.

Verse 2:

Dm

F7

So if you think of me, the way I think of you

Then you must love me, and this love must be true

Yeah I like f*cking with my head, sometimes I like to feel

The things I make are vague, they're better than what's real.

Chorus:

F

And when I'm with my friends, I can be as sick as them.

Them. them them them

But if its sickness has my friends, well it won't be long til we're all dead

F

from it.

Verse 3:

(optional to play chords. The real song is just his voice and the tamborine)

So if you love me, for how I see myself

You must be crazy, or I look like someone else

Dm

F7

Wooooaaaaah, woah (x6)
