But I m just a little concerned if you re gonna go play with fire
You ll get your fingers burned

A

So it s your place or my place
Hid under the staircase
Waiting for his van to leave

F*m

Everything was alright
Could have been a right night
If he d not forgot his keys

E

But I ll still lay you down tonight A

SAME WITH 2ND VERSE AND CHORUS

I think we should cool things down
You know leave it for a little while
So you can work things out
But then, my telephone beeps
And I get another text from you
Saying you can t sleep

So it s your place or my place
Hid under the staircase
Waiting for his van to leave
Everything was alright
Could have a been a right night
If he d not forgot his keys
Oh I m here your there
He could find us anywhere
But I still lay you down tonight

No I didn t mean to hurt you

But it just didn't seem right
