Little Me
Little Mix

[Verse]
```
Fm                                    D#
She lives in the shadow of a lonely girl
                                C#
Body's so quiet you don't hear a word
                                C7
Always talking but you can't be heard

Fm                                    D#
You can see it there if you catch her eye
                                    C#
You know she's brave but it's trapped inside
                              C7
Scared to talk but she don't know why
```

[Pre-Chorus]
```
Fm                          D#
Wish I knew back then what I know now
                C#
Wish I could somehow go back in time
          C7
And maybe listen to my own advice
```

[Chorus]
```

I'd tell her to speak up

Tell her to shout out

            G#
You gotta shout out
    D#                      A#m
