

**Towers**

**Little Mix**

**G** **D** **EM** **C**  
You turn, and I learned that the wall comes falling down

**G** **D** **EM** **C**  
Not a word, only hurt when my friends can't tell me now

**G** **D**  
I feel loved when I see your face

**EM** **C**  
But all these scars, I can't replace

**G**  
Shock me high

**D** **EM** **C**  
Hit me hard, and I don't know what you say

**G** **D**  
When you knock on my door

**EM** **C**  
And tell me you don't want to fight

**G** **D** **EM** **C**  
Oh, baby I'm sure that I'm not gonna fall this time

**G** **D**  
You never brought me flowers

**EM**  
Never helped me in my darkest hours

**C** **G**  
And you left it so late that my heart feels nothing nothing in towers

**D**  
Once we were made like towers

**EM**  
Everything could've been ours

**C**  
But you left it too late now my heart feels nothing nothing at all

~~~~~

And that's basically it for the whole song let me know if anything is incorrect
