

Rock It
Little Red

C **F**
Alive All of the colour in the night

C
Laying down beside my side

F
Am I restless in these eyes

F **G** **C**
to reach before the morning light

Out on the street corner again
I turn around and see my friend
Some go some look back
But no one which way to go

C **G** **F**
Rock it til the break of day

F **G** **C**
Don't stop rocking now no way

C **G** **F**
Everybody feels the same

F **G** **C**
This is why we play these games

Rock it til early dawn
Soon all those good times be gone
everything i ever had
If I could have one night like that

C'mon
DJ play us one more song
We've been waiting all night long
We can't ... []
So play that rhythm one more time
Now they're clearing up the floor
We never made it here at all
Stay all night waiting to go home
But no one knows which way to go

Rock it til the break of day
Don't stop rocking now no way
Everybody feels the same
This is why we play these games

Rock it til the early dawn
Soon those good times will be gone
everything I ever have
If I could have one night like that

Rock it til the break of day
Don t stop rocking now no way
And everthing I ever have
If I could have one night like that
