B-----15v-

I ve lived my life trapped with trouble
Now it s time to make a new start
I thought the only justice in this world
Came from an angry heart
Now I know there s got to be love to protect us
But we can t wait for it to come
I know there s more to life than black and white
The sooner we learn, the sooner we ve won

It s gonna take the two of us
I just can t make it all on my own
If you are a fighter
Hold me a little bit tighter

Out of the darkness and hand in hand
Baby together we will make our stand
Reach out and touch me we can win somehow
I know there s nothin that can stop us now
Oh baby, come with me out of the darkness

For the solo: Improve in the Aminor pentatonic scale
