flags and mental jewelry is all i know
G **Bm** **E**
and they keep me happy and warm inside

repeat 1st verse and chorus

(D-G alternating)

So I said unto this man who are you, and where do you come from?

And he proceeded to tell me many, many, many, many, many, many, many things

But I said nothing at all

For the flower in the corner by the room in the window and the sun

Said it all

G **F#**
at least they said they would said they could
G **F#**
mama said they would do me good.....
