[For that quick little strum thing, just hold the G chord and do a real fast down and up stroke, it sounds pretty cool]

=====

Same as first verse:

I cleared my mind
and I turned around
grateful to the one
who had laid me down
I was silent in love
pouring down from above
like so much rain it fell
and pierced my brain
the trees all alive with the colors
like the dreams of men
I had a vision of you
that carried me through
 and nobody really knows
what I would do for you
nobody really knows
how much I really how much
I love you, baby
nobody really knows
nobody knows
nobody knows
nobody knows

I think here all the chords go back up a half step

I was on a street
with a common name
I prayed for love
oh baby I even begged
I had a vision of you
that carried me through

and nobody really knows
what I would do for you
nobody really knows
how much I really how much
I love you, baby
nobody really knows
nobody knows
nobody knows
nobody knows
nobody knows
nobody knows our love
nobody knows
nobody knows
how much I,
nobody knows
how much I,
just what I d,
just what I d,
just how much
just how much
