

Gasoline

Livvi Franc

Capo 1st fret

F Am G

Sometimes we love you yet sometimes no
Sometimes I just wanna - uh - yeah
Sometimes we love you yet sometimes no
Sometimes I just wanna - uh - yeah

Paper soaked in gasoline, it can burn me down
Paper soaked in gasoline, what happens now
Call the feds, call the police
They see the smoke, we like the heat
Paper soaked in gasoline but we won't back down

Whip out your gun, cock it and pull it, pull the trigger
But I won't run, if this is all the bullets, this love's a killer ah ah

We bring the fire light it up wherever we go, wherever we go x2
I know we don't always agree but I believe it's how it should be
We bring the fire light it up wherever we go, wherever we go

Stop sign baby but with the lights red but don't slow down
We're going full speed lookin' like a dead end, what happens now

Call the feds, call the police, they see the smoke, but we like the heat
Go on baby baby leave them, leave them in the dust

Whip out your gun, cock it and pull it, pull the trigger
But I won't run, if this is all the bullets, this love's a killer ah ah

We bring the fire light it up wherever we go, wherever we go x2
I know we don't always agree but I believe it's how it should be
We bring the fire light it up wherever we go, wherever we go

Sometimes we love you yet sometimes no
Sometimes I just wanna - uh - yeah
Sometimes we love you yet sometimes no
Sometimes I just wanna - uh - yeah

We're on fire fire fire fire oh oh
We put out the fire fire fire fire oh oh
Oh boy we're on fire fire fire fire oh oh
Oh yeah we're on... fire oh oh

Paper soaked in gasoline gasoline gas gas gasoline

chorus
