so we took a van down to colorado
where we ran into the dead
i took you by the hand
know that even with your doubts, it s ok
take into account that it s not about to change
who knows, who cares

you could let it down
jump into the river baby
easy as it sounds
it s never quite as easily done
the current has us now, it s ok
take into account that it s all about to change
who knows, who cares

no one s been there
but i don t care
i know all have been there

- i don t care
- i know
