so we took a van down to colorado  
where we ran into the dead  
i took you by the hand  
know that even with your doubts, it s ok  
take into account that it s not about to change  
who knows, who cares

you could let it down  
jump into the river baby  
easy as it sounds  
it s never quite as easily done  
the current has us now, it s ok  
take into account that it s all about to change  
who knows, who cares

no one s been there  
but i don t care  
i know all have been there

i don t care

i know
