INTRO

C# G# C#   C# G# Eb   X4

```
        G#                              C#                F#     C# G#
I was minding my business like a good girl should
             A little too careful for my own good
It was just like living life in the dark, yeah
Till something jumped up and it grabbed my heart
```

CHORUS
```
            C# G# C#     C# G# Eb
I found love                          X4
(I found love)
I found love
(I found real love)
```

```
        G#                              C#                F#     C# G#
The beginning and end of every wish
Is balanced in the center of a vision like this
Maybe my emotions are inclined, yeah
To surrender to the notion of a glorious kind
```

CHORUS
```
            C# G# C#     C# G# Eb
 Cause I found love              X4
(I found love)
I found love
(I found real love)
```

```
         F#/              F#/
One touch,      souls speak
F#                                 C#      G#
The power s got me and it won t let me be
         F#/              F#/
It s too much, this heat
Eb
I wanna laugh, cry, jump for joy, shout and scream
Yeah, yeah, yeah
```

```
        G#                              C#                F#     C# G#
```

At the end of every tunnel there s a shining light, oh, yeah
In the heart of every storm there s a quiet night
My joy was hidden in a dream
I didn t know that it was there until you set me free

CHORUS
```
                C# G# C#      C# G# Eb
 Cause I found love                      X8
(I found love)
I found love
(I found real love)
I found love
I found real love
```
