If you was looking for some trouble you could find it I guarantee

Now the owner of the place was a man named Jack and he wouldn t take talking back  
He was married to a woman named Mae she took up the slack  
He knocked ya out and she d drag ya out and leave ya in the parking lot  
And when you d wake up in the mornin with a busted head you re just happy that was all you got

Chorus

Well the night that Joe Bob found out that Kenny Dean was sneakin around with June  
He caught Bobby Lee in the band in the middle of an old Hank William s tune  
Bobby Lee cried out your cheatin heart and that was just the spark it took  
And when the fighting got started everybody took part and that whole damn building shook

Till the sheriff came out and he stopped the bout hauled everybody to jail  
When the judge saw the blood and the chewed up ears he turned a whiter shade of pale  
He said good God ya ll, what s happened here somebody started World War III  
Kenny Dean just grinned the best he could and said, ?Your Honor it seems to me like it was just another...?
