

Tequila Talkin
Lonestar

A **E** **A** **D**
I caught about that conversation that I had with you last night

D **F#m** **E** **D** **E**
It must have been a combination of shooters and neon lights

A **E** **A** **D**
And I really didn't mean to say I've been losing it since you left

D **F#m** **E** **D** **E**
Yeah I might have said the words but they came from somewhere else

A **D** **E** **A** **D** **E**
CHORUS: It was just the tequila talking when I told you I'm still not over you

A **A/G#** **F#m** **E** **D** **E**
I get a little sentimental and I had one or two

D **E** **A**
And that tear in my eye was the salt and the lime, not the memory of

D
you walking

A **D** **A** **F#m** **E** **A**
If I said I'm still in love with you it was just the tequila talking.

A **E** **A** **D**
I don't know what they put in Cuervo that makes me say such things

D **F#m** **E** **D** **E**
Usually I wouldn't care so much or make such a scene

A **E** **A**
But seeing you there in that dress you're wearing just drove me right out of my

D
head

D **F#m** **E** **D** **E**
So don't hold me responsible for anything I might say.

CHORUS
