I Was Only Going Out
Loney, Dear

Chords
D x00232
Gadd9 x20233

D   **Gadd9**   **D**
I was only going out to get some air
                Gadd9   **D**
I was only going out to get back in
                     Gadd9   **D**
By the time I saw the city lights fade out
                 Gadd9   **D**
In the back seat of your car, that s when I found

Now I wish it didn t bother me no more
All the things that made me dark for such a time
And I sell my heart to make it all turn right
I could run from it, but it always catches up

        G
And I m always sad there s something in the way
     D
And I moved to like myself for what I do
          Em
Would you listen if I told you I was wrong?
               Bm   **A**
Would you take it back, would you take it back?
          G
Yeah, I used to make these songs easily
       D
But things have turned so different from now
          Em
Cause I m always sad and I always turn you down
              Bm   **A**
Don t take me down, don t take me down

Have I told you about the titans in my dreams?
 Bout the large ships that are floating next to me?
And I dreamt my bed was lying in the port
And the white water propulsion next to me

Yeah, I used to make these songs easily
But things have turned so different from now
Cause I m always sad and I always turn you down
Don t take me down, don t take me down
I got a fever when I tried to get along
And I really don t think that I m OK
Cause I m always sad and I always miss the boat

Don t take it back, don t take me down

(Whistles)
