Lorde
[Intro]
C#
[Verse 1]
C#
We re never done with killing time
                   Fm
Can I kill it with you?
                           F#
Til our veins run red and blue
   C#
We come around here all the time
                 Fm
Got a lot to not do, let me kill it with you
[Chorus]
            C#
You pick me up and take me home again
Head out the window again
                                        F#
We re hollow like the bottles that we drain
You drape your wrists over the steering wheel
Pulses can drive from here
We might be hollow, but we re brave
           C#
And I like you
                                                              Fm
I love these roads where the houses don t change (and I like you)
Where we can talk like there s something to say (and I like you)
I m glad that we stopped kissing the tar on the highway
We move in empty streets
I d like it if you stayed
```

```
[Verse 2]
C#
Now we re wearing long sleeves
And the heating comes on
(You buy me orange juice)
                             C#
We re getting good at this
Dreams of clean teeth
                               Fm
I can tell that you re tired
But you keep the car on
             F#
While you re waiting out front
[Chorus]
            C#
You pick me up and take me home again
Head out the window again
                                       F#
We re hollow like the bottles that we drain
You drape your wrists over the steering wheel
Pulses can drive from here
We might be hollow, but we re brave
           C#
And I like you
I love these roads where the houses don t change (and I like you)
