Well here s what I know **A**

Even when she s laughin **E A**
Part of her is worryin bout somethin she didn t do

[Chorus 1]

She only sits for a minute, she s a hummin bird in the livin room **F#m E D**
She s a silhouette smilin with the weight of the world on her chest **F#m E D**
She ll move a mountain for you by the afternoon **F#m E D**
A mother never rests **E A**

[Verse 2]

She works in colors **D**
It s her and the sun **E A**
Wakin up early, bringin light to everyone **E A**
She s countin on angels **D**
And she s hopin they re there **E A**
But just in case, every time she says your name it s like a little prayer

And there s wishin stars for the hurt and band-aids for how it feels **F#m E D**

And the nightlight s on so even the sun gets to set
