Dm
I wake up some mornings
Gm
Thank god not as often as i used to
Dm **C**
Slow and heavy from dreams with you

Bb
You ve found a way back in
F
Once again my long lost friend
Gm
Funny to see that after all these years
C
I miss you the same

Dm **Gm**
So i drag myself to the corner cafÃ©
Dm
And for a second i see you there
C
Like in the good old days

Bb
And i wonder what you re doing?
F
What are you up to these days?
Gm
I sometimes wish you would call me
C **C**
But then i wouldn t know what to say

Gm **Bb**
And i see you, in every cab that goes by, in the strangers
F **C**
At every cross road, in every bar
Gm **Bb**
I see you in every cab that goes by, in the strangers
F **C**
At every cross road, in every bar

Dm
It takes a glass or two
Gm
For it to settle down

Dm **C**
For your shadow to stop following me around

Bb
I find myself walking back

F
To all the places we knew

Gm
Dreaming and wishing

C **C**
To somehow run into you

Dm
And of course i wonder

Gm
Does it happen to you?

Dm **C**
Does my ghost ever come looking for you?

Bb
Cause all that s left now

F
Are my dreams and memories

Gm
But i m glad you came through my life

C **C**
And put your stain on me

Gm **Bb**
And i see you, in every cab that goes by, in the strangers

F **C**
At every cross road, in every bar

Gm **Bb**
I see you in every cab that goes by, in the strangers

F **C**
At every cross road, in every bar
