oh my baby what do you wanna do?  
what do you wanna do? what can we do?  
oh my baby what do you wanna do?  
what do you wanna do? I m losing you

Went out at midnight

they all told me they all told me you gone away  
under the moonlight  
where walk back yeah i walked back to my place

(F)(Am)(F)(G)

you wont think twice about it  
ill drink all night about it

oh my baby what do you wanna do?  
what do you wanna do? what can we do?  
oh my baby what do you wanna do?  
what do you wanna do? I m losing you

And so i got back to my room yes to my room  
thats where i lay the under the star light  
under star light close my eyes and drift away

(F)(Am)(F)(G)

you wont think twice about it  
took 2 and laughed about it

oh my baby what do you wanna do?  
what do you wanna do? what can we do?  
oh my baby what do you wanna do?  
what do you wanna do? I m losing you

(F)(Am)(F)(Am)(F)(Am)(F)(G)

And as you undo those buttons tonight  
you undo the mystries that made you why

oh my baby what do you wanna do?  
what do you wanna do? what can we do?  
oh my baby what do you wanna do?  
what do you wanna do? I m losing you

oh my baby what do you wanna do?  
what do you wanna do? what can we do?  
oh my baby what do you wanna do?  
what do you wanna do? I m losing you
