

Try To Sleep

Low

Really simple....

Repeat **G D C D** for all the verse...

Repeat **Am D C D** for the chorus...

...done...

you try to sleep
cause there s never enough
you try to sleep
but then you never wake up
inside the dream
you take a step
you come to see
to see your debt

try to sleep
don t look at the camera
try to sleep

you stretch your wings
you take a breath
you hide your feet
embrace your head
a tragedy
no, there s never enough
you try to sleep
but then you never wake up

try to sleep
don t look at the camera
try to sleep

but then you never wake up
