When the morning comes the sun s gonna shine, the sun is gonna shine

Verse:

When I first saw you baby I knew

And I when i first touched your hand and we played footsies in the sand I knew

About your tenderness, your sweet caress, so loving at your very best

You fill me up with fire inside, so much my tears have all gone dry

I m waiting for one tiny sign that you would be forever mine

And if you re feeling lonely and you need someone to hold you, come

Chorus:

Baby come round

And if you feel your heart is breaking, I ll help it mend

And if you need a helping hand, I ll be your friend

We just gotta sit by the riverside and talk our tears dry

When the morning comes the sun s gonna shine, the sun is gonna shine

Verse:

Shine on down to your love?

And when people ask, hey, did some love just come your way

I can t help but tell them about your

Tenderness, your sweet caress, so loving at your very best

You fill me up with fire, so much my tears went dry

So come round

Chorus:

Baby come round

And if you feel your heart is breaking, I ll help it mend

And if you need a helping hand, I ll be your friend

We just gotta sit by the riverside and talk our tears dry

When the morning comes the sun s gonna shine, the sun is gonna shine

Outro:

**F# / G#m / A / G#m**

We just gotta sit by the riverside and talk our tears dry, (repeat.)
