

Other People

LP

[Intro] **F#m E G#m**

**F#m E G#m**

I never tried to be a hero

**F#m E G#m**

You took us from the stars to zero

**F#m**

We had a love devout without a shred of doubt

**E G#m**

We never worried bout other people

**F#m**

You broke the spell and wanted something else

**E G#m**

Well, go fuck yourself with other people

**F#m E G#m**

Other people

**F#m E G#m**

No more song, no more dance, no dance floor

**F#m E G#m**

We left it all to chance, no encore

**F#m**

We had a love devout without a shred of doubt

**E G#m**

We never worried bout other people

**F#m**

You broke the spell and wanted something else

**E G#m**

Well, go fuck yourself with other people

**F#m**

Oh, baby it s just your body

Go, lay it on everybody

**E**

They won t be there when you re sorry

**G#m**

Other people

**F#m**

Oh, baby it s just your body

Will it know that you love somebody

Who won t be there when you re sorry?
