

When We're High

LP

Em **D** **Am** **B**
There was a time there was a life I was inside my head
C **B** **Em** **B**
Then finally I rested in your bed
Em **D**
The bars the dives the worst of vibes
Am **B**
I thought had come to pass
C **D** **Em** **B**
But still I couldn't seem to make it last

C **Am**
I'd swallow the moon and stars
B
To follow the beat of your heart

Em
When we're high
B
Oh my god you blow my mind
Am
So let's get high
Em **B**
Live until we die, yeah

Em
You and I
B
Let's just do it one more time (a million times)
Am
Let's get high (let's get high)
Em **B**
Live until we die, yeah

Em **D**
A state of mind collected like
Am **B**
a slowly wound bouquet
C **B** **Em** **B**
With memories of our favorite nights and days

C **Am**
I'd swallow the moon and stars
B
To follow the beat of your heart
