

You Want It All
LP

E

We been on this roundabout

Swimming in these fields of doubt

But there is no time now

The rain is coming down

C#m

So prepare for war

A

You can't run that far

E

You got to stand your ground

There's no more days to count

(**E C#m E C#m**)

I was there for you

I'd have died for you

I changed my life for you

But you couldn't keep it true

C#m

You'll never know how hard

A

I hit the ground that day

E

The changing of the guard

The bitter taste it gave

C#m

And all the subtleties

Of what was meant to be

Just remember now

It's cause you want it all
