

Slow Dancing

Lucero

Artist: Lucero

Song: Slow Dancing

Em

Smoking the cigarettes more than I should

C

My hands wont stop shaking and that can t be good

Am

I would forget you if I only could

C

Think about anything else

Bridge:

Em C/G-high C/G (this needs work)

Em

Slow dance at the end of the night

C

Everyones looking who cares if its right

Am

You re head on my chest, I held you so tight

C

Don t care what they had to say

Em

My feet were to drunk to keep step in time

C

But we held fast and we made it through fine

Am

You smiled a lot

C

Hell, you smiled a lot

Bridge

Em

Chairs up on tables and mopping up floors

C

And we re still dancing just like before

Am

You held me tight

C

Ah, you held me tight

Em

Light from the disco ball surrounds us with stars

C

And I looked like trouble right from the start

Am

You told me so

C

Hell, you told me so

Bridge

Em

Smoking the cigarettes more than I should

C

My hands wont stop shaking and that can t be good

Am

I would forget you if I only could

C

Think about anything else

Em

Well that slow dance didn t last very long

C

So now I guess I ll be moving on

Am

It was nice

C

Goddamn it was nice
