Seek And Hide
Lucy Wainwright Roche
[Intro]
G
[Verse]
G
I fell in love last year
                        C
It s not a thing I do a lot
C
Pack up all my lonely habits
And give it all I got
[Verse]
G
And when the winter came
                                         C
I thought I would be different, but I m not
I just the same old sorry kettle
                 G
Calling blackest pot
[Chorus]
                       С
You gotta watch it all change
You gotta watch it all stay the same
[Verse]
G
I walk the morning shore
                         C
To see what pieces I can find
С
Glue them all together
                     G
Make a sailor s Valentine
[Verse]
G
My house is empty now
                                     C
I know I should feel sorry, but I m fine
С
I ve got another losing lagging
               G
