Hello, my name is your TV

F# C# Bbm Fm7  
We ve been together so long, so many memories

F# C# Bbm Fm7  
We ve solved so many problems, situated comedies

F# C#  
I fed you ads and movie stars

Bbm Fm7 F#  
And you always fell asleep in my color bars

Bbm Fm7 C#  
But there s this world outside where the writing s off

F# Bbm  
Scenes last too long and you lose the plot

Fm7 C#  
All the girls they lie and they break your heart

F# Bbm  
And nothing s done when the street goes dark

Fm7 C# F#  
Here see California, where pretty people dream

Bbm G# F#  
And the good guy gets the girl by the sunny sea

C# Bbm Fm7  
And when they d yell upstairs you d cry

F# C# Bbm Fm7 F#  
Little boy inside their lies, in the dark I d watch your eyes

**C#            Bbm                            Fm7                            F#                            C#**

And I know the way they laugh, the jackals feast behind your back

**Bbm    Fm7**

Here you hide, but still they stab

**F#    Bbm**

In the dark I feel you die

**Bbm                            Fm7                            C#**

In that world outside where the writing s off

**F#    Bbm**

Scenes last too long and you lose the plot

**Fm7    C#**

All the girls they lie and they break your heart

**F#    Bbm**

And nothing s done when the street goes dark

**Fm7                            C#                            F#**

Here see California, where pretty people dream

**Bbm                            Fm7                            C#                            F#**

Now see that icy vacant lot where they made your nose bleed

**Bbm                            Fm7                            C#                            F#**

The flannel spread, the heater on, the world is dead

**Bbm    Fm7                            C#**

The sun is gone, you take my hand, I ll take you home

**F#    Bbm**

You ll never have to be alone

**Bbm                            Fm7                            C#                            F#**

The pictures warping slowly, the scrolling seems unending

**Bbm                            Fm7                            C#                            F#**

The snowy edges blurring, the bars between us bending

**Bbm                            Fm7                            C#                            F#                            Bbm**

Feel you start to breathe, you are alive inside of me

**Bbm                            Fm7                            C#                            F#**

Forever tan and strong and loved, you ll never bleed again

**Bbm                            Fm7                            C#                            F#**

In dreamy California scenes where bad guys meet their destiny

**Bbm    G#                            F#**

And the good guy gets the girl by the sunny sea
