Such As It Ends

You re Awful, I Love You

A **Bm**
I ve been losing sleep for days

F#m **E**
You ve been searching through the deserts and the caves

A **Bm**
Your postcards hit me in waves

F#m **E**
Sadly stinging me with songs from yesterday

F#m **A** **D** **Bm** **F#m**
Love such as it ends, breaking the hearts that wouldn t bend

F#m **E** **D**
Closes the doors you used to listen through

F#m **A** **D** **Bm** **F#m**
Love such as it ends, into the flames we ll start again

F#m **E** **D**
And in the end I ll be with you

{Bridge}

A **E** **E7** **F#m**
I ve been vacant for so long, but you were there

F#m **E**
You look so tired

E **D** **Bm**
Now just please, love, let me take it on my shoulders

E **A**
And we might make it home

{Second verse}

You ve been burning up for days
trying to gather all the figures in the clay.

You know they can't all be saved.
Leave the weak ones, find a modicum of shade

And just repeat the chorus!
