

Whipped Cream

Ludo

I haven't been playing guitar very long; this is just what I got from listening to the a few times. It's transposed to a different key, but the chords all work for the key it's in. The chords played in the guitar-only interludes are actually variations on the standard so play around with excluding certain strings until it sounds right :)

Am **Dm**
I want it with whipped cream on it
E **Am**
Baby, gimme, gimme, gimme your love
Am **Dm**
Cause I'm hungry, you can't keep it from me
E **Am**
Lord knows you got more than enough.
Am **Dm**
Baby, I, I'm fiendin', I know you got your reasons
E **Am**
For keeping it to yourself
Am **Dm**
But you got plenty, honey, I don't think it's funny
E **Dm**
Gotta give it, give it, give it or else
Dm **E**
I might just lose my mind.

C **G** **F** **C**
I think I'm entitled to your body, gotta little
C **G** **F** **C**
Problem with personal space and I've been
C **G** **F** **C**
Poundin' the jaeger; my breath and behavior
C **G** **C**
Have been driving the patrons away.

All the muffins that a man could desire
