I m going back inside that church again
To marry her and now let go of him
I still remember where he lay
She s gonna pass that very spot today
She s so beautiful wearing her dress
I watch her father take her hand in his
And they walk by that very spot
Reminding me of everything I ve got

[Pre-Chorus]

C C7 Cadd9 C
I know I won t find love like you

[Chorus]

And I know you know I m not perfect
I hope you find that I m worth it
I m gonna show, you won t be alone
And we could grow old, baby, we could grow old
Say yes and you won t regret it
Your heart won t break, I won t let it
I ll make you see, it s not make-believe
And we could grow old, baby, we could grow old
