D A Em Gm3

Every word just turns a fire that you say
All I can do is light the fuse and walk away
But even I can t do that
I still back down
There s comfort in the silent ground

Run, but I can't hide
fall, but on her side

I'm broken, so deadly
You're just the one to fix it
You're calling, it's early
That feeling
God I miss it
Don't want to live without
Don't want to sit this out
Don't want to know if it's the last time I'll breathe you in

I'm broken, so deadly
You're just the one to fix it
I'm calling, it's early
That feeling
God I miss it
Don't want to live without
Don't want to sit this out
Don't want to know if it's the last time I'll breathe you...in

I'm broken, so deadly
You're just the one to fix it
I'm broken, so deadly
You're just the one to fix it
You're calling, it's early
That feeling, God I miss it

Don't want to know if it's the last time I'll breathe you...in...
