

I Dont Want This Night To End
Luke Bryan

This is my first tab, and I really like this song so I watched a bunch of youtube videos of Luke Bryan playing this song and eventually figured it out just by looking at his hands. Enjoy.

Capo 3

F#m

Girl, I know I don t know you.

E

But your pretty little eyes so blue,

D

are pulling me in like the moon on your skin.

F#m

E

I m so glad you trusted me, this light up on this dusty sea.

D

And let your hair down, and get outta town.

F#m

Got the stars comin out,

E

Over my moon.

D

And all I know now.

Is it s going good.

CHORUS:

A

You got your hands up,

E

You re rocking in my truck.

D

You got the radio on,

You re singing every song.

A

I m set on cruise control.

E

D

I m slowing loosening hold of everything I got.

You re looking so damn hot.

F#m

E

And I don t know what road we re on,

D

Or where we've been from starrin' at you.

F#m

E

D

Girl, all I know is I don't want this night to end.

F#m

Gonna cuss the morning,

When it comes.

E

Cause I know that the rising sun,

D

Ain't no good for me.

Cause you'll have to leave.

F#m

Gonna make the most of every mile.

E

Do anything to make your smile,

D

Land on my lips.

And get drunk on your kiss.

F#m

The clock on the dash,

E

Says 3:35.

D

There's plenty of gas,

And the night's still alive.

Repeat Chorus

Bridge:

F#m - E - D

Repeat Chorus
