[D] Please excuse my eyes
[A] Please excuse my hands
[Em] Please excuse my eyes
[G] Put me in my [A] place

(repeat chords from verse)

In a dirty little room in a nasty little world
You were out of your mind you were throwin up your hands
You were makin crazy plans left a message on the mirror
And your mouth was making words but there was nobody there
Now the gears are rolling by and you don t get any wiser
And the years are rolling on but you re going round and round
And these superfreaky memories have put me in my place
But my superfreaky memories are gone without a trace
