Im Good Im Gone
Lykke Li

Working in the corner
Peaking over shoulders
Waiting for my time to come

A   **C**
Working in the corner
D   **F**
One day to the other

A   **C**   **D**   **F**
Butter for my piece of bun

A   **C**
Stepping a stone
D   **F**
and I m all gone
A   **C**
Give me the tone
D   **F**
and I m all gone

       A   **C**   **D**   **F**
Yeah, I m walking by the line
     A   **C**   **D**   **F**
Not here, but in my mind

    A   **C**   **D**   **F**
I m working a sweat, but it s all good
A   **C**   **D** **F**
Breaking my back but it s all good
           A   **C**   **D**   **F**
 Cause I know i ll get it back
         A   **C**   **D**   **F**
Yeah, I know your hands will clap

     A   **C**
I m working,
    D   **F**
I m working
         A   **C**   **D**   **F**
To make butter for my piece of bun

     F   **D**
And if you say I m not okay with miles to go
F   **D**
If you say there ain t no way that I could know
F   **D**

```
If you say I aim too high from down below
      F
Well say it now  cause when I m gone
D                                  A      C      D      F
You ll be calling but I won t be at the phone

And I m hanging around  til it s all done
You can t keep me back once I had some
Wasting time to get it right
And you will see what I m about

 Cause I m working a sweat, but it s all good
I m breaking my back but it s all good
 Cause I know I ll get it back
Yeah, I know your hands will clap

And if you say I m not okay with miles to go
If you say there ain t no way that I could know
If you say I aim too high from down below
Well, say it now  cause when I m gone
You ll be calling but I won t be at the phone

(Working in the corner
Peaking over shoulders
Waiting for my time to come)

And if you say I m not okay with miles to go
If you say there ain t no way that I could know
If you say I aim too high from down below
Well, say it now  cause when I m gone
You ll be calling but I won t be at the phone

And if you say I m not okay with miles to go
If you say there ain t no way that I could know
If you say I aim too high from down below
Well, say it now  cause when I m gone
You ll be calling but I won t be at the phone
```
